

Economical and User Friendly

The **AP3 Monochrome Digital Address Printer with Integrated Feeder** combines user-friendly features with the speed and versatility for quality on-demand print. This mid-range unit utilizes dual print banks and processes up to 26,000 #10 envelopes per hour, with variable print resolutions from 150 to 600 DPI.

Its 4.5" color touchscreen features an adjustable backlight, and allows users full control of functions, including the ability to store and recall common print jobs, up to 16GB. The integrated feeder holds up to 500 #10 envelopes at once, and can handle materials up to 3/8" thick. Two independent 1.5" print heads use 6 thermal inkjet cartridges simultaneously to produce an image area up to 3" x 17", with available overlap, and can be adjusted to a maximum vertical print range of 11". In addition, various inks are available to print on a wide range of stocks including coated and uncoated media.

Additional user-friendly features include on-screen ink monitoring for both percentage used and approximate pieces remaining, USB 3.0/LAN connectivity, the ability to print any TrueType font, spot color capability, and batch/job/lifetime counters. Options include a conveyor stacker for easy handling after printing, and infrared dryer.

The AP3 Address Printer provides the perfect balance of speed, excellent print quality and capability, making it ideal for mid-range mailers, quick-print operations, large organizations, schools & universities.

Single-Pass Address Solution - Independent print heads with an image area of up to 3" H x 17" L can produce any of these layouts in a single pass

Address only on pre-printed envelopes

Address and Return Address

Address, Return Address, Indicia
